

ASTRALPOOL 

Ultra 500

Robotic pool cleaner

**Unique robot
for public
swimming pools**

- ▶ 3 cleaning cycles
- ▶ Better performance thanks to its unique size in the market
- ▶ For pools up to 25 m
- ▶ Best control of trajectories thanks to a gyroscope
- ▶ Plug&Play

Ultra 500

Robotic pool cleaner

Features

- The pool cleaner for pools up to 25 m (hotels, etc.) with no competitor in the market.
- **3 cleaning cycles:** 3/4/5 h (floor only).
- Its unique size provides higher suction and filtration surfaces.
- **New intuitive power supply** with different options:
 - Cleaning cycle delay (2h): the dirt is allowed to settle before the robot starts cleaning.
 - Full filter LED alarm.
 - Cleaning level selection: rough, regular, fine.
 - Cleaning cycle selection.
 - Optimisation of cleaning by selecting the pool shape.
 - Electronic swivel.
 - Obstacle detection.
- The **gyroscope** guarantees an excellent pool coverage and avoids cable tangling.
- **Oil cooled** pump motor independent from the drive motors.
- New, **more robust** drive system.
- The **remote control** allows directing manually to robot to clean any zone.

Technical specifications

Speed	16 m/min
Surface	580 m²/h
Cleaning cycles	3 / 4 / 5 h with automatic shut off
Suction flow	22 m³/h
Filter	Reusable bag with a capacity of 11,520 cm²
Motors	
Power consumption	120 W
Voltage	24 V DC
Current	5 A
Power supply	
Capacity	180 W
Input	100-259 V / 50-60 Hz
Output	30 V / DC
Cable length	30 metres

Ultra 500: 60169
